The Problem

Always coming up short? Never really know how far you have to the flag, carry a bunker or reach a ditch?

The Solution

The Bushnell 1600 and tour V2 rangefinders, these have laser technology which are accurate to the nearest yard, simply look through the lens, get the flag in the cross hair (right) and press the button – its that simple! You'll never need a yardage chart again. **We have the 1600 series (left) in the shop for trial – you'll be amazed!**
